

Insurance Consultant (climate, agriculture and nat cat)

80%-100%

The Company

[CelsiusPro AG](#) is a technology company based in Zurich specialized in structuring, executing and settling index-based insurance and derivative contracts (climate, natural catastrophes, agricultural livestock and yield). We provide risk management solutions and web-based platforms for corporations, insurers, brokers, governmental agencies, industry bodies, cooperatives and agribusiness companies to offer smart and cost-effective products to clients.

Our Consulting Team

Our consulting team originates mandates and consults public and private clients globally on climate, agriculture and natural catastrophe insurance. We are looking to recruit an additional Insurance Consultant and Project Lead to strengthen our capabilities.

You lead consulting mandates analysing and developing international climate and Nat Cat insurance solutions in emerging and mature countries and you contribute to tender submissions. Moreover, you work as project manager for the Technical Assistance Facility under the InsuResilience Investment Fund.

Your tasks include:

- Project lead of consulting mandates and writing consulting reports in the field of climate, agricultural and nat cat risks. This spans risk analysis, feasibility study, product design and implementation of insurance schemes globally.
- Originate new consulting mandates. Prepare tender submissions and write technical and financial proposals
- Project management for technical assistance, including
 - Regular reporting and stakeholder management
 - Technical reviews of prospective clients in climate, agriculture and nat cat insurance
 - Negotiation of contracts with investees and consultants
 - Writing Terms of Reference, tendering for external consultants, monitoring, and troubleshooting
- Representation of CelsiusPro at conferences, including presentations and meetings

You have:

- Bachelor or Master degree in natural sciences, preferably environmental studies or agronomy
- At least 5 years of relevant working experience
- Track record as consultant, client advisor and/or program manager
- Expertise in insurance, parametric insurance and understanding of client value
- Excellent writing and communication skills in English; Spanish and French are assets
- Strong relationship-management skills and ability to establish rapport and credibility
- Passion for innovation and InsurTech themes
- Business acumen and you succeed in an entrepreneurial environment
- Preferably prior work experience in or with exposure to emerging markets

You are a team player with strong analytical and inter-personal skills. You are curious and bring passion and innovation to insurance consulting. You are solution and results oriented with the ability to manage multiple priorities and deliver in a structured and timely manner.

Candidates must have Swiss or EU citizenship or Swiss work permit.

You will be expected to travel globally (approx. 10%).

We offer a dynamic and international work environment. If you are open to a new, exciting challenge, please send us your application (motivation letter and CV) by email until **20 November 2020**. Applications without motivation letters will not be considered.
